S 300 Series

S 300 FA
WEATHERPROOF FIRE ALARM STATION

Mechanical Data

Material   : Aluminium LM6
Weight   : 1.5 Kg (Approx.,)
IP Protection : IP 65
Finish   : Anti corrosive epoxy powder coated
Cable Entry   : 2 x ¾" ET
Gasket   : Neoprene
Hardware   : Stainless Steel (SS-304)

## Electrical Data

Contact Element : 1 NO + 1 NC
Rating Voltage   : 500 V, 50 Hz AC
Current   : 10 A
Earthing   : External : 2 Nos - M6
                              Internal : 1 No - M5

Description

Weather proof Fire Alarm Station with push button actuator with a mushroom head. The actuator is in contact with the glass cover which when broken activates the alarm. The alarm station is provided with a large gasket for weather protection.
